Passionate job seeker with strong organizational skills, highly motivated- my aim is to absorb as much knowledge possible gaining crucial skills for any future projects.

I'm preferably looking for a permanent position; I'm willing to go through any training needed, being a fast learner I believe I'd make a great addition to any company and I'd hope to progress down the line. The jobs I have had so far have been mainly labouring, however that has gotten me used to early starts and working under pressure in fast paced environments.

Most of my knowledge related to IT is self taught using a variety or resources such as books and online courses. I am confident I know how to use the skills I have learnt.

Skills

Microsoft Office | Adobe Photoshop | Comprehensive knowledge of Windows & Linux operating systems | Comfortable using a wide range of devices | C# .Net WinForms Apps | Python | HTML CSS | Express JS | SQL | github

Experience

Since 2021 Scotline Terminal

- Unloaded over a million tons of timber from various vessels along side colleges within tight deadlines.

- Used critical thinking to learn and adapt to new situations, break down problems, evaluate solutions and make necessary decisions.

Previous Temporary Positions

Scaffolding | Tarmacking | Installing fibre cable ducting

Education

2016 – 2021 Greenacre Academy

Maths 4 | English 4 | Computer Science 7 | Business Level 2 Merit

2021 – 2022 Midkent College IT Level 3

Networking | Databases | Web Development | Utilizing social media for business
